

Invitation to the Dissemination Coffee Meeting around “How to boost Work Based Learning”

Date and time schedule: 12th June 2019, 9:30 –13:00

Venue: SMEUnited premises – rue Jacques de Lalaing 4, 1040 Brussels

Working Language: English

Dear Madame, Dear Sir,

Crafts and SMEs in the Painting/Decorating sector, as in many others in Europe, are struggling to improve the image of the profession and to upgrade the quality of VET, and need a well-established partnership among enterprises and VET providers to enhance effectiveness in Work-Based-Learning (WBL). We strongly believe that the right business environment for SMEs has to be created for compensating their limited capacity to deal with their learning needs.

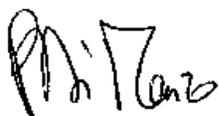

The project [“IN PAINT – Innovative WBL Painting Talents”](#) (2017-2019), with the support of the ERASMUS+ programme, has been launched to gather existing well-functioning WBL systems, best practices and tools for defining a Model for the painting sector. Most of the expected results as the WBL Platform (Open-access Resource Centre) and the profile of the WBL Developer (as a bridge between VET Institutes and associations/companies) are ready to be publicly presented and discussed.

UNIEP - International Association of Painting Contractors - which is the leader of the project involving 10 partners among Professional associations, VET Institutes and Companies in 8 EU Countries, will be pleased if you could join the ***Dissemination Coffee Meeting around “How to boost Work Based Learning”*** in order to share the lessons learnt and some useful tools.

The **programme** of the Dissemination event is available at this [link](#) where you will find a **reply form** to return to UNIEP Secretariat (info@uniep.eu) **by Wednesday 15th May at the latest.**

Should you think that this event could be of interest for other colleagues, do not hesitate in spreading the information.

Best regards,

Patrizia Di Mauro – UNIEP Secretary General
